

## **Hot and Practical Topics in Diagnostic Pathology-2017 Chicago**

The 3rd CAPA Diagnostic Pathology Course

**Saturday, August 19, 2017 – Sunday, August 20, 2017**  
**Lurie Comprehensive Cancer Center**  
**Northwestern University Medical School Auditorium**  
**303 E. Superior Street, Chicago, Illinois**

### **Presented by:**

Chinese American Pathologists Association (CAPA)  
Lewis Katz School of Medicine at Temple University

### **Organizing Committee:**

Ping Tang, MD, PhD (Chair); Wei Xin, MD, PhD (co-chair)  
Ximing Yang, MD, PhD; Hanlin Wang, MD, PhD; Shuyuan Xiao, MD; Yun Gong, MD, PhD; Guoping Cai, MD; Eric (Zongming) Chen, MD, PhD; He Wang, MD, PhD; Lanjing Zhang, MD; Lizhen Gui, MD, PhD; Chunhua Cui, MD; Yaxia Zhang, MD, PhD

**Conference Overview:** This 2-day course provides in-depth coverage on the hot topics including recent advance in molecular pathology and practical topics including those commonly encountered in daily diagnostic pathology in a format of didactic lectures and case-based presentations. The course will be presented by national experts across all subspecialties of diagnostic pathology. The course will address the questions and challenges and provide the updates and pearls in diagnostic pathology that practicing pathologists encounter in day-to-day practice, help the practicing pathologists to avoid the commonly encountered diagnostic errors and become proficient different subspecialties, and help residents and fellows with their subspecialty board exam preparations. The newly added on case discussion will provide ample opportunity for pathologists from academic and private practice to have face to face discussion.

### **Target audience:**

Practicing pathologists, fellows, residents and other health care professionals involved in diagnostic pathology.

## **Conference Objectives:**

At the conclusion of this course, participants should be able to:

- Review the recent advances in molecular pathology in each subspecialty
- Recognize the diagnostic traps that are commonly encountered in daily diagnostic pathology of different organ systems
- Demonstrate improvement in diagnostic skills in problematic cases
