Message from the President (2021-2022)

Dear Colleagues of CAPA:

It is a beautiful Spring again and a wonderful year has gone by so quickly. I have enjoyed serving as your President this year and feel tremendously grateful for the opportunity to help our organization grow and accomplish all that we have this year! I am looking forward to passing the torch onto the incoming leadership team. I am confident that the work we have done together this year has CAPA well poised for future success. We truly embodied our mantra, “Let’s help make our members all that they can be!”

This year, we established and maintained a strong and cohesive leadership team and an organized operational structure. The board did a great job in governing the activities of CAPA (see the report of Board of Directors). The Executive Committee led the various subcommittees to effectively engage and empower the members in education, professional development, and connection.

- In education, while we continue to deliver excellent Annual Diagnostic Course, Annual Scientific Meeting, and weekly online lectures, we significantly expanded and strengthened the education committee. This augmented the educational activities and members’ engagement. New education subcommittees included autopsy, clinical pathology, GYN pathology, IHC, meeting logistics, molecular pathology, neuropathology, pediatric pathology, and thoracic pathology. Unique educational programs included weekly bone and soft tissue pathology curbside consults, a CAPA-CHCAMS joint virtual meeting on pathology quality management, and a CAPA session at APIAP on GI pathology.
- In professional development, the peer support pilot program was very successful. It not only added a series of informative lectures to the resources in leadership development, but has also proven to be a great way of developing skills for CAPA leaders and beyond.
- In membership, we have reached a record of 900 members. The educational programs are great benefits to the members and a major attraction to new members. In addition, the bylaw revisions allow inclusion of non-physician licensed PhD who identify as Chinese culture and are board certified in Pathology subspecialties and are practicing Pathology in a CLIA- and/or CAP-accredited clinical laboratory in North America. The private practice group and the trainees’ group are important
Message from the President (2021-2022)

Let’s help make our members all that they can be!

(Cont’d from Page 1)

members of CAPA. This year they are well organized and shared various successes of their own. Our members’ satisfaction was high and the membership is strong. The stronger CAPA becomes, the stronger the voice CAPA represents.

- In publication, the CAPA’s official journal - *Journal of Clinical and Translations Pathology (JCTP)* - published their 1st issue. CAPA published a special issue in Diagnostic Pathology in the *Archives of Pathology and Laboratory Medicine*. Additionally, CAPA members published numerous peer-reviewed articles.

- In collaboration, CAPA fostered collaboration with allied Pathology and Medical societies and industry partners both nationally and internationally on educational activities. This year, CAPA welcomed multiple Digital Pathology and AI companies as sponsors, while maintaining an enduring relationship with a genomic diagnostic company. Right now, Pathology is experiencing the 3rd revolution, i.e. Digital Pathology (DP) and AI. The 2nd revolution, i.e. Molecular Pathology is still going strong. CAPA continues to provide state of the art education to our members so they are prepared to practice today’s pathology, i.e. morphology + IHC + molecular pathology + DP/AI = augmented pathology.

CAPA is a volunteer organization. Each success is built on the great efforts of many engaged members. Although service and comradery are its own reward, we owe sincere gratitude to some members who have made significant, sustained, and cumulative contributions to CAPA and the practice of pathology. In this issue, we give recognitions to these members and celebrate them with various awards. Hopefully we can all be inspired by them and will shine in our own ways knowing that CAPA will take notice!

Finally, the CAPA 2022 Annual Meeting on March 19th marks the transition for the CAPA leadership team. My sincere gratitude goes to the Executive Committee members - Drs. Lanjing Zhang, Zaibo Li (Treasurer), Xiaohui Zhang (Secretary), Xiuli Liu, Jinping Lai, and Guofeng Gao (trainee liaision), the Board – Drs. Jie Song (secretary), Shaoxiong Chen, Xin Han, Shimin Hu, Zaibo Li, Larry Wang, Xiangdong Xu, and Xiaohui Zhang, and the leaders and members of various committees. I will treasure the wealth of friendship and comradery that were fostered with all of you, the CAPA members. I truly had the privilege, honor and pleasure to serve as your President. Please join me in giving a warm welcome to our incoming President, Dr. Xiuli Liu, and the new board members, Drs. Deyin Xing, Hui Zhu, and Jinping Lai. I look forward to the new beginning and a brighter future of CAPA!

With warmest regards,

Marilyn M. Bui, MD, PhD, FCAP
CAPA President (2021-2022)
Senior Member
Scientific Director of the Analytic Microscopy Core
Section Head of Bone and Soft Tissue Pathology
Department of Pathology, Moffitt Cancer Center
Professor and Director of the Cytopathology Fellowship
University of South Florida Morsani College of Medicine
Tampa, FL
Message from the President-Elect (2022-2023)

Dear colleagues of CAPA,

Warmest greetings to all of you! It is a great honor to be elected CAPA President for 2022-2023. I sincerely thank you for entrusting me with CAPA; I look forward to working with each and every one of you to take CAPA to even greater heights.

I would like to thank all my predecessors for all of the exceptional work they have done for CAPA. They created it, built it, led it, served it; their visions were clear, their goals ambitious, and all their efforts have helped to better and promote CAPA.

In recent years, CAPA has become better, stronger, and more cohesive. CAPA membership has now reached an all-time high with a total of more than 800 members today. And with a nonprofitable tax status 501(c) and effective sponsorship campaigns, CAPA remains financially healthy. The channels to CAPA leadership position are more open, the election process more democratic and transparent, and the transition of leadership is smooth and efficient. Furthermore, several programs of CAPA (weekly online lecture series, annual diagnostic pathology course, annual academic and business meeting, and peer support lecture series) have grown to be routine.

A professional society is formed by members for the members; the better and stronger the members, the better and stronger the professional society. I aim to empower CAPA members and make them more individually visible in CAPA, their own institutions, and other pathology societies. Therefore, my overall plan for CAPA in 2022 will focus on empowering CAPA members and creating opportunities for pathologists of Chinese origin and descent inside and outside CAPA.

With such a solid foundation laid by the outstanding work of my predecessors, their leadership teams, and all CAPA members, as well as the aforementioned routine and educational programs, I believe we are in a prime position and strategic phase to explore previously uncharted territories. My plans for the 2022-2023 term include, but are not limited to:

1) continuing the existing CAPA educational programs
2) promoting teaching excellence by including a workshop on lecturing skills
3) creating an “Education” section on the CAPA homepage to host educational materials and make them more accessible to members
4) applying for USCAP companion society status
5) establishing efficiency-improvement subcommittee to share experiences on how to improve clinical and practice efficiency in real world
6) exploring the possibility of weekend subspecialty diagnostic courses for pathologists in China by collaborating with key medical schools and pathology societies in China

The above plans may appear ambitious; but with the strong support from the Board of Directors (BOD), the careful planning by the executive committee (EC) and the meticulous operations of all committees and subcommittees, I am confident that we can successfully accomplish these missions. With your active engagement, continual encouragement, and invaluable contributions, I am optimistic about CAPA’s future.

To all my fellow CAPA members, I pledge to you that I will lead and serve CAPA with a pure heart, good conscience, and genuine faith.

Sincerely yours,

Xiuli Liu, MD, PhD
CAPA President (2022-2023)
Professor, Pathology & Immunology
Washington University School of Medicine, St. Louis, MO
Let's help make our members all that they can be!

**CAPA Board of Directors Summary Report 2021-2022**

The 2021-2022 CAPA Board of Directors is composed of six new members, Marilyn Bui (CAPA president as ex officio), Shimin Hu, Zaibo Li, Larry Wang, Xiangdong (Don) Xu, Xiaohui Zhang, and three members from previous year, Shaoxiong Chen, Xin (Sean) Han, and Jie Song (BOD secretary). The BOD held four formal meetings on 4/11/2021, 7/24/2021, 12/19/2021, and 3/6/2022. BOD members have worked closely as a collegial group on many projects such as bylaw amendment, award policy, committee approval, international collaboration, and other CAPA initiatives. In addition to serving on the BOD, all members have also actively participated and contributed to various CAPA activities. The following is a summary of major achievements of the 2021-2022 BOD.

1. **Established various policies**

   This BOD believes that clear and public policies can help standardize relevant procedures such as award nomination, and can serve as a reference for future CAPA leadership. This BOD has passed a variety of policies: international collaboration guideline, international collaboration committee, award nomination and determination process, organization chart, bylaw committee guideline, etc. These policies are posted on the CAPA website and accessible to all members.

2. **Transparency**

   This BOD has made transparency a top priority. All BOD meeting minutes, policies, and written communications between BOD and other committees are posted on the CAPA website in a member-only area in a timely manner. This BOD believes that transparency plays an important role in encouraging member participation and avoiding potential conflict of interest.

3. **Bylaw amendment**

   Amending the CAPA bylaws when it is necessary is one of the responsibilities of the BOD. The current bylaws state that BOD is the only body authorized to pass amendment proposals and to submit them for approval through a referendum. An amendment that would expand the CAPA membership eligibility to non-physician clinical lab directors was submitted to the January 2022 election, and was passed with overwhelming support. A minor change of wording regarding the BOD election was also passed.

4. **Award nomination and determination**

   A variety of CAPA awards have been established over the past years. This BOD has decided to classify these awards into three categories: 1. Trainee awards whose determination process is governed by the Award Committee; 2. Service-type awards whose nomination is governed by the president and EC, and final approval by the BOD; 3. Academic/research/professional-type awards that have an open nomination process and final determination by the BOD. This BOD hopes that these standard processes will help ensure the transparency and fairness of these awards. The details are published in the CAPA Award Policy.

5. **International collaboration**

   This BOD recognizes that collaborating with international pathology organizations has been an important endeavor of CAPA. There are also concerns about potential conflict of interest. This BOD has established the International Collaboration Policy, and also created the International Collaboration Committee. More details have been published in relevant documents.

(Cont’d on Page 5)
6. **Assistant secretary**

This BOD has decided to create an internal position “assistant secretary”. The individual shall be a board member at the first year of his/her term. The assistant secretary can preside over the first BOD meeting when the new BOD convenes.

7. **CAPA Journal**

The first issue of CAPA’s scientific journal “Journal of Clinical and Translational Pathology” was successfully published.

8. **CAPA Election**

A CAPA election was successfully held in January, 2022. Three new board members were elected. Two bylaw amendments were also passed with overwhelming support.

Annual Summary of CAPA Committees 2021-2022

Summary of CAPA Education Committee and Subcommittees

CAPA Education Committee
Chair: Shaoxiong Chen
Co-chairs: He Wang, Linsheng Zhang, Xiaohui Zhang, Yaxia Zhang
Members: Weibiao Cao, Jian Chen, Liam Chen, Xin Jing, Xiaoxian (Bill) Li, Zaibo Li, Jingxin Qiu, Jie Song, Larry Wang, Deyin Xing, Jinjuan Yao, Zhaohai Yang, Chen Zhang, Miao Zhang, Jiehao Zhou

CAPA subcommittee chairs (see the below)

Mission:
The mission of the CAPA Education Committee is to provide the updated knowledge to its members at all stages of their careers and facilitate the interaction in education between CAPA and other pathology organizations

1. Provide weekly online educational lectures
2. Organize CAPA pathology annual diagnostic meeting
3. Organize CAPA annual meeting which occurs at the same time as USCAP meeting
4. Promote educational collaboration with other national and international pathology organizations

Major achievements:

1. CAPA education subcommittees and CAPA lecture speakers
Eight new education subcommittees were established to better serve CAPA education mission under the leadership of the current president, Marylin Bui in the early 2021. In addition, meeting logistics subcommittee was added too. Currently, there are total 19 subcommittees. All subcommittee chairs serve as cochairs or members of CAPA education committee.

Subcommittee chairs, co-chairs, members, lecture speakers, etc have made great contribution to CAPA weekly (Saturday and Sunday) online education activities, annual diagnostic meeting and other educational activities by providing high quality of lectures and hosting the events. These educational activities tremendously benefit residents, fellows and practicing pathologists.

• Autopsy Subcommittee (New) (Chair: Weibiao Cao)
• Breast Pathology Subcommittee (Chair: Xiaoxian Li)
• Bone and Soft Tissue Subcommittee (Chair: Yaxia Zhang)
• Clinical Pathology Subcommittee (New) (Chair: Jian Chen)
• Cytopathology Subcommittee (Chair: Xin Jing)
• Dermatopathology Subcommittee (Chair: Jie Song)
• Liver Pathology Subcommittee (Chair: Zhaohai Yang)
• GU Pathology Subcommittee (Chair: Miao Zhang)
• GYN Pathology Subcommittee (New) (Chair: Deyin Xing)
• H&NN Pathology Subcommittee (Chair: He Wang)
• Hematopathology Subcommittee (Chair: Jiehao Zhou)
• IHC Subcommittee (New) (Chair: Jingxin Qiu)
• Meeting Logistics Subcommittee (New) (Chair: Larry Wang)

(Cont’d on Page 7)
Annual Summary of CAPA Committees 2021-2022

(Cont’d from Page 6)

- Molecular Pathology Subcommittee (New) (Chair: Jinjuan Yao)
- Neuropathology Subcommittee (New) (Chair: Liam Chen)
- Online Education Subcommittee (Chair: Linsheng Zhang)
- Pathology informatics/digital pathology (Chair: Zaibo Li)
- Pediatric Pathology Subcommittee (New) (Chair: Larry Wang)
- Thoracic Pathology Subcommittee (New) (Chair: Chen Zhang)

2. CAPA weekly online education (OLE)

Chair: Linsheng Zhang
Co-Chairs: Yaxia Zhang, Wei Zheng
Members: Jian Jing, Li Lei, Xiaoxian (Bill) Li, Lin He, Rong Xia, Min Zhang

The CAPA OLE subcommittee continues to manage the educational platform, hosted 24 great lectures in the Pathology Online Education Series, from molecular pathology (3), cytopathology (2), bone and soft tissue pathology (5), breast pathology (6) and genitourinary pathology (8). The Online Program also invited 4 non-CAPA member experts as guest speakers to give lectures on topics of their expertise. The Online Webinar series now has 660 approved registered attendees. There are usually 150 – 250 attendees in each lecture. The OLE Subcommittee have also provided technical support to the subspecialty subcommittees hosting special lectures, including 7 cytopathology, 4 autopsy, 3 hematopathology and 2 IHC lectures. The bone/soft tissue pathology and cytopathology subcommittees have also been using the OLE platforms zoom meeting to organize virtual curbside consultations and discussing interesting cases. In addition, the OLE support group has also been involved in the technical support of the monthly Special Lecture Series in Leadership, Professionalism, Wellness and Friendship Development Program, under the great leadership of Drs. Marilyn Bui and Xiuli Liu. This year, the 7th Annual CAPA Diagnostic Course was successfully hosted only mostly using the CAPA OLE webinar platform, also supported by the OLE Subcommittee.

3. The 7th Annual CAPA Diagnostic Course (September 11-12, 2021)

Organizing Committee: He Wang (Chair), Linsheng Zhang (co-chair), Zaibo Li, Jingxin Qiu, Jinjuan Yao, Xiaoxian (Bill) Li, Deyin Xing, Jian Chen, Lian Chen, Chen Zhang, Zhaohai Yang, Weibiao Cao, Larry Wang, Lizhen Gui, Xin Jing, Lanjing Zhang, Yaxia Zhang, Jie Song, Miao Zhang, Jiehao Zhou, Xiuli Liu, Xin Han, Xiaohui Zhang, Shaoxiong Chen, Marilyn Bui
Logistics Subcommittee: Larry Wang (Chair)
Steering Committee: He Wang, Linsheng Zhang, Shaoxiong Chen, Marilyn Bui
CME: Lanjing Zhang and Penn Medicine Princeton Health

Due to the COVID-19 pandemic, CAPA diagnostic course was hold on-line in 2021. Our keynote speaker, Dr. Jason Hornick, updated us on the progress in applications of immunohistochemical tools in bone and soft tissue pathology. The lectures were presented by national experts from 17 subspecialties of pathology. This 2-day course provided in-depth coverage on all topics including recent advance in pathology informatics/molecular pathology, and practical topics including those commonly encountered in daily diagnostic pathology in a format of didactic lectures and case-based presentations. Its goal was to help the practicing pathologists to avoid the commonly encountered diagnostic errors and become proficient in different subspecialties, and also help residents and fellows with their subspecialty board exam preparations. This diagnostic course is highlighted in CAPA journal: Journal of Clinical & Translational Pathology, in a special session.

(Cont’d on Page 8)
CAPA journal: Journal of Clinical & Translational Pathology, in a special session. CAPA journal: Journal of Clinical & Translational Pathology, in a special session.

**4. CAPA-CHCAMS JOINT ZOOM MEETING (August 27-28, 2021)**

The 7th Sino-US Forum on Oncologic Pathology/National Cancer Center Symposium on Advances in Oncologic Pathology国家癌症中心肿瘤病理诊断新进展研讨会暨第七届中美肿瘤诊断病理论坛

**Organizing Committee:** Xiaohui Zhang (Chair), Marilyn Bui, Shaoxiong Chen, Cancer Hospital, CAMS (应建明主任，邹霜梅副主任医师，郭蕾)

**CAPA experts:** Marilyn Bui, Liam Chen, Fang Fan, Jiaoti Huang, Chen Liu, Xiuli Liu, Jun Wang, Ximing Yang, Jinjuan Yao, Xiaohui Zhang, Jim Zhai, Gang Zheng

The topics were focused on pathology quality management system, subspecialty pathology establishment, pathology practice advances and future perspectives and advances in Molecular pathology. This meeting was accessible to practicing pathologists in China. It was hold successfully with excellent feedback.

**5. APIAP (the 12th Asia Pacific International Academy of Pathology Congress), Nov 1 to 14, 2021 (online meeting)**

**Organizing Committee:** Huamin Wang (Chair), Marilyn Bui, Shaoxiong Chen

**CAPA experts:** Marilyn Bui, MD, Ph.D, Zu-Hua Gao, MD, PhD, Chen Liu, MD, PhD, Hanlin Wang, MD, PhD, Huamin Wang, MD, PhD, Lanjing “L.J.” Zhang, MD

This section provided the most recent advances in gastrointestinal tract, liver and pancreas pathology, including the molecular classification of pancreatic ductal adenocarcinoma, application of liquid biopsy and artificial intelligence (AI) in gastrointestinal tract and liver pathology. This section also covered the commonly encountered diagnostic challenges in interpreting liver biopsy and eosinophilic gastroenteritis in daily practice. It was designed for pathologists-in-training, practicing gastrointestinal pathologists, and general pathologists. All CAPA experts gave excellent presentations.

**6. CAPA Annual meeting (March 19, 2022)**

**Organizing Committee:** Shaoxiong Chen, Marilyn Bui, Larry Wang, Xiaohui Zhang and Xiuli Liu

Three speakers were invited to give talks on Digital pathology, GYN pathology and COVID-19. Dr. Marilyn Bui will summarize the CAPA accomplishments for her term as current CAPA president. CAPA awards will be announced. Pathology society leaders and CAPA sponsors are also invited to give short talks. This meeting will be hold online from 12:15 pm-4:00 pm (Pacific Time Zone), March 19, 2022. The schedule is pending.

**Summary for CAPA Membership Committee**

**CAPA Membership committee:**

**Chair:** Xin Han

**Co-Chair:** Wei Zhang

**Committee Members:** Di Ai, Zhihong Hu, Xiaoyan Huang

(Cont’d from Page 7)
Committee Aims:
Membership committee provides the foundation for CAPA. It helps member recruitment and provides membership-related services.

Major Achievements for 2021-2022:
1. Recruiting more members and providing membership-related services: More than 100 new members have joined CAPA and currently we have over 800 active CAPA members.
   a. Reminding and helping membership renewal/upgrade
   b. Encouraging pathology colleagues to join CAPA
   c. Validating applicants’ eligibility for CAPA membership
   d. Helping members fix their account related issues
   e. Providing new members with information for CAPA OLE program et al
   f. Communicating important announcements/news to CAPA members
2. Helping organize CAPA OLE: Helping build a successful and productive member only CAPA OLE Webinar program. We currently have over 650 registrants for CAPA OLE Webinar Zoom platform. All registrants’ membership status has been validated by the Membership Committee.
3. We proposed to expand CAPA Membership eligibility for non-physician licensed PhD who identifies Chinese culture and is board certified in pathology subspecialties and is practicing pathology in a CLIA- and/or CAP-accredited clinical laboratory in North America. The proposed revision has been approved by the CAPA Bylaw Committee, CAPA BOD and all eligible CAPA member vote.
4. Helping CAPA annual diagnostic course and annual meeting registration: We had a very successful CAPA annual diagnostic course last year.
5. Validated candidates’ eligibility for BOD and president elections.

Summary for CAPA Award Committee

Chair: Xuchen Zhang
Co-Chair: Miao Zhang, Qiusheng Si
Members: Weibiao Cao, Xianzhong Ding, Wei Jiang, Deyin Xing, Henry Yang, Zhaohai Yang, Jinjuan Yao, Ji Yuan, Jiehao Zhou, Hui Zhu

Committee Aims:
Award committee works with CAPA president and Board directors to evaluate and elect for CAPA GoPath abstract award, Lizhen Gui award and other available awards.
Annual Summary of CAPA Committees 2021-2022

(Cont’d from Page 9)

Major Achievements for 2021-2022:

1. CAPA GoPath abstract award: The award committee received a total of 27 abstracts for this competition, 6 winners were selected after a careful reviewing of all eligible abstracts by 11 reviewers. To get a fair evaluation, author names and institution names have been removed. Two committee members who organized the abstracts knowing the authors’ names and institutions were not involved in the scoring. The reviewers who are the authors of the abstracts did not score the involved abstracts. Based on the abstract quality (such as novel idea, new method/technology, significant findings, etc), each committee member reviewed all abstracts independently. One score ranging from 1 to 10 was given to each abstract: 10 is the highest score, while 1 is the lowest. The average score was calculated. This year, the competition is very tight, and the winning score ranges is 7.27 to 7.77 with a difference of 0.50 between the first place and third place.

2. Lizhen Gui Award: The award Committee selected Dr. Xing Zhao, cytopathology fellow at Department of Pathology of Moffitt Cancer Center, as the winner of 2022 Lizhen Gui Award. The evaluation was based on clinical performance, research/publications in training, leadership and service to CAPA and other pathology organizations. Award committee members independently reviewed application documents of the candidate. All the applicant's materials were also reviewed by Dr. Lizhen Gui who agreed and approved the committee's selection.

CAPA private practice committee

Chair: Jinping Lai
Vice-Chair: Lizhen Gui and Guilan Chen
Members: Fan Chen, Hong Cheng, Yimin Dong, Liying Fu, Ping Hou, Zhongbo Jin, Feng Li, Xiu Yang, and Sharon Zhang

Major Achievements for 2021-2022:

1. Had a committee meeting to discuss how to serve CAPA PP pathologists better. Dr. Fan Chen gave a talk about how to successfully work in a reference pathology lab/pathology groups; Dr. Guilan Chen gave a talk about how to become a successful private practice pathologist with joy; and Dr. Feng Li shared with his experience on how to avoid lawsuit cases in private practice.

2. Had some local gatherings with other Chinese American pathologists to enjoy Chinese food, fostering friendship, learning updating pathology diagnostic criteria and sharing interesting cases together

3. Discussed pathology cases and helped case sign-out with local Chinese American pathologists for more than 100 cases

4. Had a well-organized and high level Dancing-singing performance at the CAPA diagnostic course weekend

5. Collaborated in clinical research through case study or case report and published 18 peer-reviewed journal articles

(Cont’d on Page 11)
Let’s help make our members all that they can be!

Annual Summary of CAPA Committees 2021-2022

(Cont’d from Page 10)

Summary for CAPA Trainee Committee activities

Chair: Guofeng Gao
Co-Chair: Fengming Chen, Rong Xia
Members: Yingtao Zhang, Jing Lu, Hanqiao Zheng, Lin He, Dongpo Salas, Dapeng Wang, Feifan Chen and Haijuan Gao
Senior advisor: Dr. Linsheng Zhang, MD/PhD, Emory University

Committee Aims:
To encourage trainee members to network and engage, to promote and maintain well-being, and to contribute to the growth of CAPA. We truly believe CAPA will help each of us to achieve success, and the successful members will contribute to CAPA success; To maintain the momentum in studying pathology through our trainee member WeChat group, Zoom meetings and/or personal mentoring: studying and discussing cases, sharing experience and pitfalls in residency training, fellowship application and board exams; To empower trainee members taking leadership roles and seeking volunteering and organizing experiences by serving committee for CAPA and other societies, and to help trainees reaching their full potential in professional careers.

Major Achievements for 2021-2022:
1. Organized two career development and fellowship application prep workshops (1 in 09/2021; 1 in 02/2022)
2. Organized one case sharing session and workshop to share experiences and surviving skills during residency training
3. Regularly shared and discussed interesting and challenging cases in our trainee WeChat group to maintain the momentum in studying pathology
4. Actively network among trainees to promote and maintain well-being
5. Many trainee members joined various CAPA committees to shadow and participated in CAPA newsletter preparation and other activities
6. Recruited about 15 associate members to join CAPA and increased our trainee WeChat group members from 187 to 204, and promoted the influence of CAPA among pathology trainees and practicing pathologists who completed medical school in US
7. The committee mentored many junior trainees as well as CMG applicants in various areas including challenging personal crises and residency match guidance

Summary for CAPA IT Committee

Chair: Jie Song
Co-Chair: Di (Andy) Ai, Jinming (Jimmy) Song, Xiangdong (Don) Xu
Annual Summary of CAPA Committees 2021-2022

(Cont’d from Page 1)

Committee responsibilities:
The IT team maintains the website and provides technical support for membership management and elections. Their jobs are often time sensitive - members who experience login or payment issues often need help immediately, website glitches need to be solved as soon as possible especially during election and membership renewal season. The IT team has worked with enthusiasm and collaboration to provide excellent service to CAPA.

Achievements for 2021-2022:
1. Successful administration of CAPA election:
   CAPA elections are conducted online with electronic ballots accessible only to active members who have logged on to the website. To ensure this remains a convenient, accurate and secure process, the IT team has spent a lot of time and expertise to test software, design ballots, solve technical problems, answer members’ questions, monitor the voting process, collect the voting results, and transfer the results to the election committee for verification. The January 2022 election was successfully conducted without any incidents.
2. Development of pages to upload recorded video lectures for the Leadership team and the Education committee:
   Youtube account was created to host the recorded video lectures. Pages for Leadership committee and the Education committee were built and added to the CAPA website. The system was maintained and more video lectures were loaded to the website upon committee request.
3. Technical support for membership renewal, registration, and fee payment:
   CAPA’s current and perspective members can register, renew, and pay fees conveniently on the website. This has greatly improved user satisfaction and has also made other committees’ job easier. While this may seem to be a simple process, it requires the IT team to work diligently behind the scenes on software updating and debugging.
4. Timely posting of announcements.
5. General maintenance of CAPA website:
   The IT team has taken over the website maintenance duty that used to be covered by a third-party contractor, saving a significant amount of fund.

Summary for CAPA Industry Relations Committee

Chair: Huihong Xu
Co-Chair: Huan-You Wang, Zhongren Zhou
Members: Limin Yu, Chen Zhou, and Haiyan (Hannah) Chen

Committee Aims:
To search and connect with industry sponsors which are critical in ensuring the success of CAPA nonprofit organization and its mission, increasing the visibility in our community, maintaining a long-term financial sustainability, and continuing to provide best service to our members, affiliates, and friends.

(Cont’d on Page 13)
Annual Summary of CAPA Committees 2021-2022

(Cont’d from Page 12)

**Major Achievements for 2021-2022:**
Organizing fundraising events for CAPA major educational activities including the 7th Annual CAPA Diagnostic Course and 2022 Annual Business Meeting.
Searching potential industry sponsors and connect with CAPA through active engagement of CAPA members.
Total pledged sponsorship during the year is $2,9000 from the following sponsors: Foundation Medicine ($10,000), Singularity AI ($10,000), Path AI ($5,000), Dakewe ($2,000) and ACAP ($2,000).
Providing finance related educational information to our CAPA members.
Assisting educational lectures on the latest biomedical research developments and diagnostic tests at the CAPA OLE Webinar Zoom Platform and annual meeting.
Sustaining CAPA-GoPath Abstract Award.

**Summary for CAPA Finance Committee**

**Chair:** Zaibo Li  
**Potential Co-Chair:** Yanjun Hou  
**Members:** Huihong Xu, Zongmin (Eric) Chen, Qin Huang, and Yue Sun  
Hanqiao Zheng (PGY-4, Boston Medical Center), as CAPA trainee liaison (non-voting member)

**Major Achievements for 2021-2022:**
1. Maintained a very healthy financial balance with a net increase of $73,595 to our total reserve this year
2. Established a new bank account to replace the previous one and managed money market interest earning bank account
3. Prepared CAPA bookkeeping
4. Coordinated with CAPA Membership committee to collect membership fees
5. Coordinated CAPA sponsorship activities and CAPA member donations

**Summary for CAPA Peer Support Group**

**Chair:** Xiuli Liu  
**Co-chairs:** Huihong Xu  
**Sponsor:** Marilyn Bui  
**Members:** Yun Gong, Qihui (Jim) Zhai, Yimin Dong, Guofeng Gao, Jinping Lai, Feng Yin, Wei Zhang, Yaxia Zhang, Yu Helen Zhang, Zhongren Zhou

**Mission:**
CAPA peer support group of year 2021-2022 is a new pilot program. The mission of this program is to discover inner strength, develop leadership skills, refine professionalism, promote wellness, and cultivate long-lasting friendships through personal interactions and support from peer to peer. It proposed two types of activities: special lecture series and small group activities.

(Cont’d on Page 14)
Let's help make our members all that they can be!

Annual Summary of CAPA Committees 2021-2022

(Cont’d from Page 13)

Major achievements:

In the past year, this committee had two group meetings (03/08/2021, 04/05/2021) to prepare for and organize the proposed activities. A total of 8 sessions with 11 lectures were held. These lectures covered leadership education, training, and development, leadership style, other important professional skills such as interviewing for leadership positions, negotiation, communication, and feedback giving. These lectures attracted at least 1,100 attendances and are considered excellent lectures by many attendees. In several lectures, the speakers sincerely shared with CAPA members their personal journey to their current leadership position. Other speakers revealed many “hidden” treasures to CAPA members, such as how to prepare for leadership position interviewing, how to communicate, how to effectively give feedback, and how to negotiate. All lectures in this series were recorded, posted on the CAPA website which CAPA members have direct access at their convenience.

Several committee members formed his or her peer groups, met regularly with his/her group members, and supported each other through the past year. Some of the small group activities were highlighted in the one-hour program during the 7th Annual CAPA Diagnostic Course Break with presentations from Drs. Xiaoping Sun, Ximing Yang, and Wei Zhang.

We believed this pilot program was a success. It opened our CAPA members’ eyes: all of us are leaders and have potential of reaching higher and achieving more. We have role models who have charted successfully in other professional societies. Through this program, all committee members tasted the sweetness of and felt the pride of contributing to and serving CAPA, our own organization. Through this program, we were also able to connect with leaders in other pathology societies and have impressed them with our organization. Through this program, we were able to interconnect CAPA members at all levels, from trainees to attendings, from peer to peer, from those in private practice to those in academic, from those accomplished to those who are waiting to be inspired. This interconnection makes our CAPA stronger, our members better, and our future brighter. I also want to thank all speakers in our lecture series and all committee members. I am particularly grateful towards Dr. Helen Zhang for her efforts in all meeting flyer preparation and Webnar operation and Dr. Linsheng Zhang for his excellent Webnar technique reassurance and support.

Lecture series (8 lecture sessions; a total of 11 speakers) during the year 2021-2022

03/21/2021
Carol F. Farver, MD, Professor, Director of the Division of Education Programs, University of Michigan; Teaching physicians to lead

04/25/2021
Zu-Hua Gao, MD, PhD, Professor, Chair, Department of Pathology, McGill University; Building your emotional bank and momentum
Ming Zhou, MD, PhD, Professor, Chair, Department of Pathology, Tufts Medical Center; He who excels in study shall follow an official career: Reckoning with my decision to become a department chair

05/30/2021
Liron Pantanowitz, MD, MHA, Professor, Director, Division of Anatomic Pathology, University of Michigan; Interviewing for a leadership position in pathology

06/27/2021
Sarah Bean, MD, Duke University; Professor, Chair of Well-Being, Department of Pathology, Duke University Medical University; Just Okay Is Not Okay!: giving and receiving feedback effectively

(Cont’d on Page 15)
Annual Summary of CAPA Committees 2021-2022

(Cont’d from Page 14)

07/25/2021
Qihui “Jim” Zhai, MD, Professor, Mayo Clinic Florida, CAP governor, President of FSP; To contribute, to serve, and to benefit

08/29/2021
Ann Gronowski, PhD, Vice Chair of Faculty Affairs & Development at Washington University School of Medicine; Past-President of the American Association for Clinical Chemistry and the American Board of Clinical Chemistry; Planning your negotiation strategy

10/30/2021
Guliz A. Barkan, MD, Professor, Loyola University, the current president of the American Society of Cytopathology; Communication and professionalism: perspectives from a pathologist

1/30/2022
Hongbo Yu, MD, PhD, Chief, Pathology and Laboratory Medicine, VA Boston Healthcare; Personal experience as a service chief at VA Boston Healthcare
Xiao-Ming Yin, MD, PhD, Chair, Department of Pathology and Laboratory Medicine, Tulane University School of Medicine; Know who you are and what you want
X. Long Zheng, MD, PhD, Chair, Pathology and Laboratory Medicine, The University of Kansas; Between rocks and hard places: differing expectations of the department chair

Summary for CAPA Research Committee

Chair: Xiaoxian Li
Vice chair: Hui Zhu, Qiusheng Si, Dongwei Zhang
Members: Guoli Chen, Shaoxiong Chen, Yanjun Hou, Xiaoyan Liao, Wei Zhang

Committee aims:
Research committee aims to promote and support clinical research; to encourage, promote and coordinate collaborations among CAPA members; and to assist research projects and funding search for CAPA members.

Major achievements for 2021-2022:
1. Promote and support clinical research: CAPA research committee members are actively involved in clinical research in many fields of pathology, including Breast Pathology, Bone and Soft Tissue Pathology, Cytopathology, Gastrointestinal Pathology, Gynecological Pathology, Head and Neck Pathology, and Molecular Pathology.
2. Encourage and promote collaborations: CAPA research committee members have established extensive collaboration among CAPA members involving dozens of institutions and many CAPA members
3. Assist research projects:
   a. During the past year CAPA research committee members published more than 30 articles and several book chapters, more than half of these publications involving multiple CAPA members
   b. On going projects: in addition to published articles, we have more than 10 research projects finished/manuscript submitted. Multiple efforts with books/book chapters are also underway. We are looking forward to a prosperous 2022-2023.
CAPA Curbside Consultation-Bone and Soft Tissue Pathology Subgroup

Group leader: Shi Wei
Advisor: Paul Zhang
Consultants: Marilyn Bui, Yaxia Zhang and Shaoxiong Chen

Aim:
This peer to peer group activity is to discuss challenging, rare, or interesting cases for educational purpose. The group leader and the fellow peer consultants are experienced bone and soft tissue pathologists who will provide informal consultation to whom are interested to join a zoom meeting weekly. Dr. Paul Zhang will serve as an advisor to provide ad hoc consultation and connect the consultants to additional resources and opportunities. This activity is to promote the education, support, collaboration and friendship among CAPA members.

Format and achievements:
This weekly, peer-to-peer group activity, open to all CAPA members, is to discuss challenging, rare, or interesting cases for educational purpose. The group leader, advisor and the fellow peer consultants are experienced bone and soft tissue pathologists who volunteer to provide informal consultation to whom are interested to join a zoom meeting. This activity is to promote education, research, collaboration, and friendship among CAPA members. At the case conference, the presenters provide pertinent clinical and radiologic information and the pathology information via a digital camera without disclosing any confidential information of the patient (i.e., strictly following HIPPA rules). Although this educational activity may also be helpful in real time and future practice, it has been disclaimed that the content of the case discussion should not be used as a formal consultation for diagnosis, and that the members participating in the discussion shall not bear any legal responsibility for the pathology report and their names should not appear in the report.

This has been a very successful CAPA educational activity in the last academic year and is highly evaluated by all participants. Some of the cases discussed have resulted in manuscripts in press and in preparation.

Contact information of the consultants
1. Shi Wei, MD, PhD (Project Lead)
   Professor of Pathology & Laboratory Medicine
   The Barbara F. Atkinson Endowed Professor, Director of Translational Research
   University of Kansas Medical Center
   3901 Rainbow Blvd, 1332 Hospital, Mailstop 4049
   Kansas City, KS 66160
   Editor-in-Chief, Human Pathology Reports
   Adjunct Professor
   Department of Pathology, University of Alabama at Birmingham

Disclaimers: All advice provided is for education and research use only and free of charge. It should not be used for patient care. However, medical consultations should be sought in other form if deemed required by the participating pathologist. The participants should and will hold the faculty and CAPA free of harms that are directly or indirectly linked to the program. The faculty or CAPA does not and will not receive any form of compensations through this program.
2022 CAPA Annual Meeting

Time: 12:15 pm - 4:00 pm (Pacific Time Zone/Los Angeles local time), March 19, 2022

ZOOM: Webinar encrypted link (just need click to join):
https://us02web.zoom.us/j/85347971421?pwd=cG1uc1ZiNUM0MWJFYlo4SHJ1aEN4UT09
Webinar ID: 853 4797 1421
Passcode: 202268

Meeting schedule:

12: 15-12:30: Zoom login. The meeting will start on time

12:30-2:30 pm: Scientific session
(For each speaker, 35 minutes for presentation and 5 minutes for question)
Moderators: Shaoxiong Chen and Xiaohui Zhang

12:30-1:10 pm: **WHO Classifications of Cervical Epithelial Tumors**
Pei Hui, PhD, MD, Professor of Pathology, Yale University

1:10-1:50 pm: **Implementing Digital Pathology and AI for Routine Clinical Practice: Positive Impact on Patient Care and Pathologist Satisfaction**
Anil Parwani, MD, PhD, MBA, professor and vice chair of Pathology, OSU

1:50-2:30 pm: **The Pathology Aspect of COVID-19**
Xiao-Ming Yin, MD, PhD, Professor and chair of Pathology & Laboratory Medicine, Tulane University

2:30-3:30 pm: **CAPA business meeting** (CAPA President speech, Award announcement, Pathology society leader speech, etc.)
Moderator: Marilyn Bui, CAPA president

3:30-4:00 pm: **Sponsor presentation**
Moderator: Huihong Xu

3:30-3:40 pm: **An Overview of Digital and Computational Pathology Opportunities at Foundation Medicine with Emphasis on EGFR-mutated lung adenocarcinoma.**
Douglas Lin, MD, PhD, Senior Pathologist and Associate Medical Director,

3:40-3:45 pm: **The future of digital pathology, from PathAI's perspective.**
Limin, Yu, MD, PathAI,

3:45-3:55 pm: **Topic (TBD),**
Hui Li, PhD, Chief Executive Officer, Singularity AI, Inc.

Passcode: 202268

CAPA dinner (Preregistration required)
The CAPA dinner at USCAP will be held at 半岛海鲜酒家 (Five Star Seafood Restaurant). Because the CAPA annual meeting is virtual, no shuttle/bus will be arranged for this event. All dinner attendees should be vaccinated for COVID-19, and CAPA is not liable if anyone becomes COVID positive or symptomatic after the CAPA dinner.

CAPA Dinner Restaurant: 半岛海鲜酒家 (Five Star Seafood Restaurant)
Address: 140 W Valley Blvd, San Gabriel, CA 91776/Quantong Square (全统广场)
Tel.: 626-288-1899
Time: 6:30 PM, March 19, 2022
Transportation: You are responsible for your own transportation and please arrange it ahead.

CAPA annual meeting organization committee:
Marilyn Bui, Shaoxiong Chen, Xiuli Liu, Larry Wang, Linsheng Zhang, Xiaohui Zhang, Huihong Xu
Dr. Qihui “Jim” Zhai is a professor and consultant pathologist, and director of FISH Laboratory at Mayo Clinic Florida. Dr. Zhai is a genuine three-shields Mayo physician. He is an internationally recognized surgical pathologist and a well sought-after speaker. He has published more than 100 peer-reviewed manuscripts and nine major pathology textbooks. He is the editor-in-chief of two high-impact books published by CAP Press. “Quality Management of Anatomical Pathology Laboratory” and “Grossing, Staging, and Reporting: an integrated manual of modern surgical pathology” are must-haves in all anatomic pathology labs. Jim is a passionate educator. He is a repeated faculty for USCAP, CAP, ASCP, and state pathologists societies. He is an innovative investigator. His research discoveries are translated into clinical practice improving precision care via liquid biopsy.

Dr. Zhai is one of the earliest CAPA activists and a life member. His long-term commitment and dedication to CAPA have influenced many fellow pathologists. He was the CAPA president from 2017 to 2018. He and his team successfully attracted financial support from vendors and laid a solid foundation for continuous membership growth. Under his leadership, CAPA transformed into a much more robust and much more respected pathology organization in the field.

Dr. Zhai has generously donated thousands of hours to the pathology community. He served on the USCAP education committee, ASCP RISE committee, president-elect of Houston Society of Clinical Pathologists, Test Development and Advisory Committee for America Board of Pathology, current president of Florida Society of Pathologists, and a Governor of CAP. Within CAP, he is the chair of the investment committee, vice-chair of the Finance Committee, and vice-chair of the Council of Accreditation.

Dr. Zhai has been tirelessly promoting DEI for many years. His outstanding academic achievements and a strong record of leadership in all major national pathology societies are inspirational and exemplary. His efforts in advocating innovative practice during the Pandemic have significantly impacted our pathology practice.
Dr. Linsheng Zhang is an associate professor in the Department of Pathology and Laboratory Medicine at Emory University School of Medicine, and a member of the Emory Winship Cancer Institute.

Dr. Zhang completed Anatomic and Clinical Pathology (AP/CP) residency training at Medical University of South Carolina followed by fellowship trainings in hematopathology and molecular genetic pathology at Emory University. He provides clinical service in diagnostic hematopathology and molecular diagnostics of hematolymphoid neoplasms, solid and soft tissue tumors. His current research focuses on molecular profiling of malignant neoplasms and bioinformatic analysis of cancer mutation profiling data, to facilitate the genetics-based precision oncology.

Dr. Zhang is also an excellent educator. He is currently the director of Molecular Genetic Pathology Fellowship program at Emory Pathology, a member of the American Society for Clinical Pathology (ASCP) Checkpath Hematopathology Committee, College of American Pathologists (CAP) Hematology and Clinical Microscopy Committee, and a regular author for the resident in service exam (RISE). He was one of the founders of the Online Education Program provided by Chinese American Pathologist Association (CAPA) and has been the Chair of Online Education Subcommittee since March 2020, leading a team to organize the Pathology Lecture Series, and provide support to other virtual educational activities and professional meetings.
CAPA Zu-Hua Gao Outstanding Service Award 2021-2022

Shaoxiong Chen, MD, PhD

Associate professor

Department of Pathology and Laboratory Medicine

Indiana University School of Medicine

Indianapolis, Indiana

Dr. Chen joined in CAPA activity as early as 2006 when he was a resident. Since then, he has been involved in CAPA activities. In 2018, he became a member of CAPA Award Committee. Later he served co-chair and chair of CAPA Award Committee in 2019 and 2021, respectively. The committee was focused on selection of best candidates for CAPA-GoPath Award and The Lizhen Gui Award. In 2019 and 2020, he was honored to receive "CAPA Member of the Year Award". From March 2020 to March 2022, he has been serving CAPA as a BOD member and worked hard to support CAPA’s growth and success.

From April 2021 to March 2022, Dr. Chen has taken a job as Chair of CAPA education committee. By working with committee co-chairs and members under the leadership of the current president, Marilyn Bui in the early 2021, eight new education subcommittees were established to better serve CAPA education mission. Currently, there are total 19 education subcommittees. Education committee members have worked together and successfully hold CAPA 2021 diagnostic course chaired by He Wang, CAPA-CHCAMS JOINT ZOOM MEETING chaired by Xiaohui Zhang, and APIAP chaired by Huamin Wang. Currently Marylin and I are organizing CAPA 2022 annual meeting (March 19, 2022) which occurs at the same time as USCAP. Dr. Chen finds it has been a rewarding experience to serve as the chair of the CAPA education committee.

Dr. Chen received his medical degree from Tongji Medical University and later obtained his PhD. in Biochemistry and Molecular Biology from Tulane University. After completing a combined AP/CP residency training at The University of Toledo in 2009, he finished his surgical pathology fellowship training at M.D. Anderson Cancer Center in 2010 and his cytology fellowship training at Indiana University in 2011, where he stayed as a faculty. His clinical service has been focused on bone/soft tissue and cytology. Currently, he is a tenured associate professor of Pathology and Laboratory Medicine at Indiana University.
CAPA Distinguished Pathologist Award 2021-2022

Xiao-Ming Yin, MD, PhD, FAASLD, FCAP
Dr. Donald R. Pulitzer and Donna G. Pulitzer Professor and Chair
Department of Pathology and Laboratory Medicine
Tulane University School of Medicine
New Orleans, LA

Dr. Xiao-Ming Yin obtained his medical degree from Shanghai Medical School, Fudan University and his PhD from University of Texas Southwestern Medical Center at Dallas. He completed his post-doctoral fellow training and clinical pathology residency at Washington University School of Medicine at St. Louis. He then jointed the Department of Pathology at University of Pittsburgh School of Medicine in 1998 as an Assistant Professor and rose through the rank to become a Tenured Professor. In 2010 Dr. Yin became the Louis Y. Mazzini Professor, Vice Chair for Clinical Pathology of the Department of Pathology and Laboratory Medicine, Indiana University School of Medicine, and the Director of Indiana University Health Pathology Laboratory. Since 2020 Dr. Yin has been the Dr. Donald R. Pulitzer and Donna G. Pulitzer Professor and Chair of the Department of Pathology and Laboratory Medicine at Tulane University School of Medicine.

While Dr. Yin’s clinical specialty is in molecular pathology, he has kept an active NIH-sponsored research program in liver pathogenesis. Dr. Yin is a lifetime member of Chinese American Pathologist Association, Society of Chinese bioscientists in America and Chinese American Liver Society. He is a fellow of College of American Pathologists, American Association for the Study of Liver Diseases and Southern Society for Clinical Investigation, and an elected member of American Association of University Pathologists (the Pluto Society). He has served on numerous committees in American Society of Investigative Pathology, Association of Molecular Pathology, Association of Pathology Chairs, and American Association for the Study of Liver Diseases. He had also served as the Treasurer and the President of Indiana Association of Pathologists. He is an Associate Editor of “American Journal of Pathology”, in addition to services on the editorial boards of many other journals. He was the recipient of 2017 Outstanding Investigator Award from American Society for Investigative Pathology. He has authored and coauthored 166 peer reviewed articles, reviews, book chapters and commentaries with an H index of 78 and a total citation of more than 41,000. In addition, he has edited and co-edited 7 books related to the research in the area of cell death and apoptosis.
CAPA Young Investigator Award 2021-2022

Wei Wang, MD, PhD
Assistant Professor
Department of Hematopathology
Division of Pathology/Lab Medicine
The University of Texas MD Anderson Cancer Center
Houston, TX

Dr. Wei Wang is an assistant professor in the Department of Hematopathology at MD Anderson Cancer Center. He finished his medical school training at Shandong Medical University in 1998, followed by his PhD as well as postdoctoral research and pathology residency training at Wake Forest University. After that, Dr. Wang did a hematopathology fellowship at MD Anderson Cancer Center from 2014 to 2016. He works as an assistant professor at MD Anderson since 2016.

Dr. Wang’s clinical research focuses on neoplastic hematopoietic diseases with an overall goal to identify novel diagnostic markers and potential therapeutic targets. He has applied and been granted several internal and external funds. He is productive and has a record of over 130 peer-reviewed publications as well as numerous meeting abstracts. Dr. Wang is also the co-director of their clinical flow cytometry laboratory, in charge of overseeing the daily execution of the laboratory, monitoring quality, and improving/designing the novel diagnostic panels for various hematologic diseases. Their newly designed panel for initial workup and residual disease evaluation of blastic plasmacytoid dendritic cell neoplasm is recently published on Haematologica and draws the attention of many hematopathologists.

Dr. Wang’s achievements are well-recognized by the Pathology and Hematology communities. He has been invited to give lectures at national/international conferences and academic institutions. He serves as an editor for two pathology journals. Dr. Wang is also a regular reviewer for many scientific journals. He was invited by the FDA to review grants for Orphan products development. He is also a member of MDS committee at International Clinical Cytometry Society and is involved in establishing a flow cytometry MDS panel that can be implemented in different tiers of hospitals. Dr. Wang also enjoys teaching and has won Excellence in teaching Award in his department.
Let's help make our members all that they can be!

2022 CAPA Lizhen Gui Award Winner

Xing Zhao, MD  
Cytopathology fellow  
Department of Pathology  
Moffitt Cancer Center  
Tampa, FL
CAPA members' Academic Achievements

Congratulations to Dr. Xiaobing Jin!
Xiaobing Jin, MD, current cytopathology fellow at Univ. of Michigan has been selected to receive the 2022 The Journal of the American Society of Cytopathology (JASC) Physician In-Training Award.

Congratulations to Dr. Marilyn Bui!
Marilyn Bui, MD, PhD is appointed as the chair of the digital and computational pathology committee and the chair of the informatics cluster of the council of scientific affairs of CAP. Dr. Bui has completed her 4-year term as the Chair of the CAP Publication Committee and the Chair of the editorial board of the CAP Today and is now the advisor of this group.

CAPA Online Education Program Announcement

CAPA Online Education Program
Pathology Lecture Series

CAPA OLE is now adopted by:
The Digital Pathology Association (DPA) – Digital Anatomic Pathology Academy (DAPA)
Whole Slide Image Educational platform provided by the DPA for its members.
(https://digitalpathologyassociation.org/)
DPA membership is FREE to pathology residents, fellows and medical students.
DPA-DAPA is invested in YOU, the future of pathology.

How to join the meeting (NOW ONLY OPEN TO REGISTERED CAPA AND DPA-DAPA MEMBERS)
FOR CAPA/DPA-DAPA members, if you have not registered yet, please register at:
https://us02web.zoom.us/webinar/register/WN_sCIPe-wiQcSjLi9zozbdEw
After registration, you will receive a link unique for you to join the meeting.

If you are not a CAPA member and qualified for the membership, please join CAPA before registering for the CAPA OLE: https://www.capa-ht.org/join-us/registration/

CAPA OLE Upcoming Lectures:
4/3  Dr. Haiyan Chen: Mesenchymal Tumors of the Gastrointestinal Tract
4/10 Dr. Min Cui: Histopathology of Colorectal Polyps
4/17 Dr. Xiaoyan Liao: Epithelial Neoplasms of the Anal Canal

Disclaimer: CAPA is not involved in the preparing or screening of the lectures. The speakers take full responsibility for their talks, including the format and the contents. To protect copyrights, the online lectures will not be saved or distributed in any format unless specifically approved by the speaker before the meeting.
