

RE: 2024 CAPA BOD Election

December 19, 2023

Dear CAPA Members:

Thank you very much for your nomination. The CAPA Election Committee is pleased to announce that all six (6) nominated candidates are determined to be qualified candidates per CAPA bylaws to fill four (4) positions on the Board of Directors (BOD) for the year 2024-2026.

The qualified candidates are listed below in the order of the receipt of their nomination.

The election will be held from 12:00 pm (noontime) EST Friday, January 5, 2024 to 12:00 pm(noontime) EST of Sunday, January 7, 2024. The results will be announced by the Election Committee within one-week post-election.

Thank you in advance for your participation in the 2024 CAPA election.

CAPA Election Committee

List of candidates for BOD

Qiuying Shi, MD, MS. (石秋英)

Hongbo Yu, MD, Ph.D. (于洪波)

Tong Sun, MD, Ph.D. (孙瞳)

Chunjie Wang, MD, Ph.D., FRCPC, FCAP (王春杰)

Guoli Chen, MD, Ph.D. (陈国力)

Yongjun Liu, MD, Ph.D. (刘勇军)

Qiuying Shi (石秋英), MD. MS.

Assistant Professor, Emory University

Dr. Qiuying Shi received her MD and MS degrees in ENT surgery from Shanxi Medical University in 1985 and 1991, respectively. Prior to her postdoctoral fellowship in endocrinology at the University of Minnesota, she practiced as an ENT surgeon for six years. She subsequently completed her AP/CP residency at the University of Illinois at Chicago (2009-2013), cytopathology fellowship at Indiana University (2013-2014), and Head and Neck (HN) pathology instructorship at UAB (2014-2015). Dr. Shi is board-certified in AP/CP pathology and cytopathology.

Dr. Shi joined the Pathology Department at Emory University as an assistant professor in May 2018 and became director of the HN pathology instructorship program in July 2020. This followed three years of practice as a pathologist and co-director of the Biospecimen Core at the University of Kentucky. Her clinical interests include HN pathology and cytology, and she has published 50 abstracts and articles. She is passionate about teaching and mentoring residents, having guided over 17 trainees who authored 20 abstracts/platforms and three manuscripts in recent years. She actively delivers didactic lectures, presentations, and courses within local and national professional organizations, including CAPA, the Georgia Association of Pathology (GAP), and nine universities, covering topics in HN pathology. Dr. Shi co-authored a book chapter for the Milan salivary gland cytopathology report system, 2nd edition published this year.

At the national and international levels, Dr. Shi chaired HN and Endocrine pathology subspecialty platforms at USCAP in 2021. She has served on the USCAP abstract review board in the HN pathology category since 2021. Subsequently, Dr. Shi has served the social media and education committees in the Papanicolaou Society of Cytopathology (PSC); clinical practice committee at the ASC since early 2022, and Dr. Shi was invited as a panelist for the ASC eJournal Webinar in 2022. She has also been invited to join the editorial advisory boards of the major journals of HN Pathology (NASHNP) for USCAP, Archives of Pathology & Laboratory Medicine for CAP, Diagnostic Cytopathology for PSC, and Cancer Cytopathology. She became a CAP House delegate in 2022.

Dr. Shi is dedicated to serving CAPA as a member and has been actively involved in CAPA activities since 2018. She gave CAPA Annual Diagnostic Courses in 2021 and 2022. She has served on the CAPA HN pathology and cytopathology committee since 2021 and has been the chair of the HN Pathology committee and co-chair of the CAPA Leadership committee since 2022. She moderated the HN Pathology session at the CAPA Annual Diagnostic Courses and was awarded a CAPA service

award in 2023. Dr. Shi supported the CAPA companion meeting at the USCAP and ASC annual conferences and thoroughly enjoyed CAPA activities. She plans to continue serving CAPA in the future.

Hongbo Yu, MD, Ph.D. 于洪波

Chief, Pathology and Laboratory Medicine Service

Director, Boston Area Consolidated Laboratories

VA Boston Healthcare System

I have been actively involved in all aspects of the academic triads: clinical service, teaching, and research. I have extensive professional experience in clinical services and research projects in area of Pathology and Laboratory Medicine, with a strong focus of Hematopathology. After receiving M.D. from Beijing Medical University in China and Ph.D. from Brandeis University, I was a postdoctoral research fellow at Johns Hopkins University School of Medicine. I completed my residency in Anatomic and Clinical Pathology at Georgetown University Hospital and joined Brigham and Women's Hospital for a Hematopathology fellowship. After the fellowship, I joined the faculty of Brigham and Women's Hospital, Department of Pathology, and was appointed as Instructor at Harvard Medical School in 2006. I accepted the position of Director of Hematology Laboratory in Department of Hospital Labs and Pathology at UMass Memorial Medical Center, and Assistant Professor of Pathology at University of Massachusetts Medical School in 2009. Then I became Director, Hematopathology, Hematopathology Fellowship Program, and Flow Cytometry Laboratory, in Department of Pathology at UMass Memorial Medical Center in 2012. I was promoted to Associate Professor of Pathology at University of Massachusetts Medical School in February 2012. I joined VA Boston Healthcare System in July 2015 as Director, Hematopathology and Flow Cytometry Laboratory, Boston Area Consolidated Laboratories. Then I was promoted to my current position as Chief, Pathology and Laboratory Medicine Service and Director, Boston Area Consolidated Laboratories, VA Boston Healthcare System in July 2017. I have worked at three tertiary medical centers including Brigham and Women's Hospital, UMass Memorial Medical Center and VA Boston Healthcare System. I have provided expert clinical services to clinicians and Pathology colleagues. I have also been actively involved in translational research projects with a major focus of evaluation of diagnostic and prognostic markers for hematopoietic malignancies. I have been a lifetime CAPA member since 2006 and I have been actively involved in CAPA activities such as teaching diagnostic pathology courses, leadership courses, mentoring Pathology residency applicants, and serving on Hematopathology education committee.

Tong Sun (孙瞳), MD, Ph.D.
Assistant Professor, Yale Medical School

Dr. Sun received her medical degree from Peking University Health Science center and her Ph.D. in molecular oncology from Peking Union Medical College. She joined in Dana-Farber Cancer Institute/Harvard Medical School as research fellow, where she was later promoted as a research scientist and focused on genetic markers and regulation mechanism involved in prostate cancer. She completed residency training in Anatomic and Clinical Pathology at University of Massachusetts Medical School and a Cytopathology Fellowship at the Massachusetts General Hospital. She joined Yale Pathology staff in 2020 and currently serves as an assistant professor of pathology. Dr. Sun loves all aspects of general surgical pathology and cytopathology but has research interests particularly in translational and molecular studies involving gynecological and genitourinary pathology. She earned Warren R. Lang, MD Resident Physician Award and Journal of American Society of Cytopathology Physician-in-training Award for investigating utility of next-generation sequencing in urine cytology specimens. She has published more than 60 peer-reviewed publications including 6 book chapters and reviews. She serves as a reviewer for 25 scientific journals as well as editorial board members for 2 professional journals.

Chunjie Wang (王春杰) MD Ph.D. FRCPC, FCAP

Associate Professor, Anatomical Pathologist

Department of Pathology and Laboratory Medicine,

College of Medicine, University of Saskatchewan

Saskatoon, Canada

Dr. Chunjie Wang graduated from the Fourth Military Medical University (FMMU), Xi'an, China. Then he pursued Master and Ph. D training at the Department of Pathology, FMMU, and was promoted as associate professor before he came to University of Toronto, Canada for further strengthening his research skills. Dr. Wang worked as a research fellow at Ontario Cancer Institute, University Health Network, University of Toronto, and his project focused on translation research of breast cancer, which resulted in excellent publications in peers review journals.

Dr. Wang completed his five years of Anatomical Pathology residency at University of Manitoba, Canada in 2014. Since then, Dr. Wang has been working as a staff pathologist at Department of Pathology and Laboratory medicine, College of Medicine, University of Saskatchewan. He is the core member of breast service and provincial consultant pathologist in Saskatchewan. In addition to his busy clinical service, Dr. Wang is very enthusiastic in medical student and resident teaching. As an academic pathologist, Dr. Wang has trained more than 20 residents and served as mentors for many of them. He was granted many "Excellence in Teaching Awards" from the Department, College of medicine, Resident Doctors of Saskatchewan and CAPA, etc.

Dr. Wang has a long-term interest in public services. In addition to regular online consultation for peers in North American and China, He was an invited speakers in many academic centers/hospitals in China since 2017, some of them including Beijing, Shanghai, Xi'an, Zhengzhou, and his home province Hebei. His presentations addressed his experience with North American approach to diagnostic breast pathology. He voluntarily contributes his time and his expertise to the Breast Pathology Subcommittee, Education Committee of CAPA. He actively participates in CAPA online education, Zhejiang/CAPA breast pathology symposium. Dr.

Chunjie Wang is a loyal believer of CAPA and has been a regular member since 2017. Dr. Wang has committed to devote himself to CAPA and make it a mainstream professional organization representing and promoting the success of every Chinese pathologist in academic centers or private practice. According his clinical, academic, and public service background, with his enthusiasm, Dr. Chunjie Wang will be the best fit for CAPA BOD.

Guoli Chen (陈国力), MD, PhD

Associate Professor, Pennsylvania State University

Director of Surgical Pathology Fellowship Program and Director of Renal Pathology

Dr. Chen is a dedicated life member of CAPA, contributing actively and consistently to the organization for nearly a decade. He was one of the lecturers during the inaugural year of the online education program. Dr. Chen has demonstrated his commitment by serving on various committees and events, including the education committee, research committee, award committee, and annual diagnostic courses. Currently, he serves as the co-chair of the molecular pathology subcommittee of CAPA.

Dr. Chen holds the position of associate professor at Pennsylvania State University College of Medicine. He serves as an attending pathologist, director of the surgical pathology fellowship program, and director of renal pathology at Penn State Health. Dr. Chen earned his medical degree from Jining Medical College, a master's degree from Peking University Health Science Center, and a Ph.D. from Indiana University. His residency and fellowship training were completed at the Johns Hopkins Hospital. Beyond his clinical practice in surgical and molecular pathology, Dr. Chen is deeply passionate about teaching and engaging in academic activities. To date, he has authored over forty peer-reviewed articles and contributed to multiple book chapters.

Yongjun Liu (刘勇军), MD, PhD

Associate Professor

University of Washington Medical Center

Dr. Yongjun Liu is an Associate Professor in the Department of Laboratory Medicine and Pathology at the University of Washington Medical Center, where he also serves as the Director of the GI/Liver Pathology Fellowship Program. Dr. Liu completed his AP and CP training in 2018 at Penn State Hershey Medical Center, followed by subspecialized GI/Liver pathology fellowship training at University of Washington Medical Center. Board-certified in Anatomic/Clinical Pathology, Dr. Liu started his academic journey as an Assistant Professor at the University of Wisconsin-Madison in 2019 before transitioning to the University of Washington Medical Center in 2022.

Dr. Liu's practice and academic interests are hepatobiliary, gastrointestinal, and pancreatic pathology. His research interests include liver neoplasms, nonalcoholic fatty liver disease, and liver transplantation. He is particularly interested in discovering genetic and genomic mechanisms underlying liver cancers. He has authored over 130 peer-reviewed articles and book chapters in these fields. He is an active reviewer of many professional journals and serves on several national society committees. He is an active reviewer of multiple professional journals and serves on several national society committees, including serving as an Associate Editor of Genomics and Journal Watch (JW) Committee of Pancreatobiliary Pathology Society.

As an actively engaged member of CAPA, Dr. Liu currently serves on the Executive Committee (2023-2024). In this role, he has actively contributed to various aspects of organizational functioning, including decision-making, strategic planning, event coordination, and policy development. He previously served on the CAPA GI and Liver Pathology Subcommittee, and delivered talks in GI pathology as part of the CAPA Online Education Program Pathology Lecture Series.

Dr. Liu's dedication and valuable contributions to CAPA's mission and objectives reflect his commitment to the society's overall success. He views CAPA as a robust platform providing outstanding educational opportunities for pathologists, trainees, and fellows. Dr. Liu is keen on expanding his involvement and is interested in serving as a member of the Board of Directors (BOD) to further contribute to the growth and impact the society and foster the success of CAPA members.
